

January 6<sup>th</sup>, 2005

**Informal Meeting regarding Child Protection held by Mohammad Aftab (GSS).**

Minutes of Meeting

The meeting was very delayed because of former meeting in the same local.

The points from last meeting discussed and highlighted were:

- The necessary to obtain the information/data about the children like orphan children, single parent children, disabled children and injured children and what is the current condition for the children. This information has to be collected by the NGOs working in this field.
- A response plan including timeframe has to be presented by all NGOs.

The importance of a big meeting with all actors in this field is needed and will be held on **Monday the 10<sup>th</sup> of January at 11 AM in front of the coordination office.**

To this meeting every NGO has to bring their concrete plan. Everybody has to pass the message about the meeting to organisations working in the child sector.
